How to connect to a wifi network.

First, click the wifi, battery, and time button in the bottom right hand corner of the screen. A pop up menu will appear.

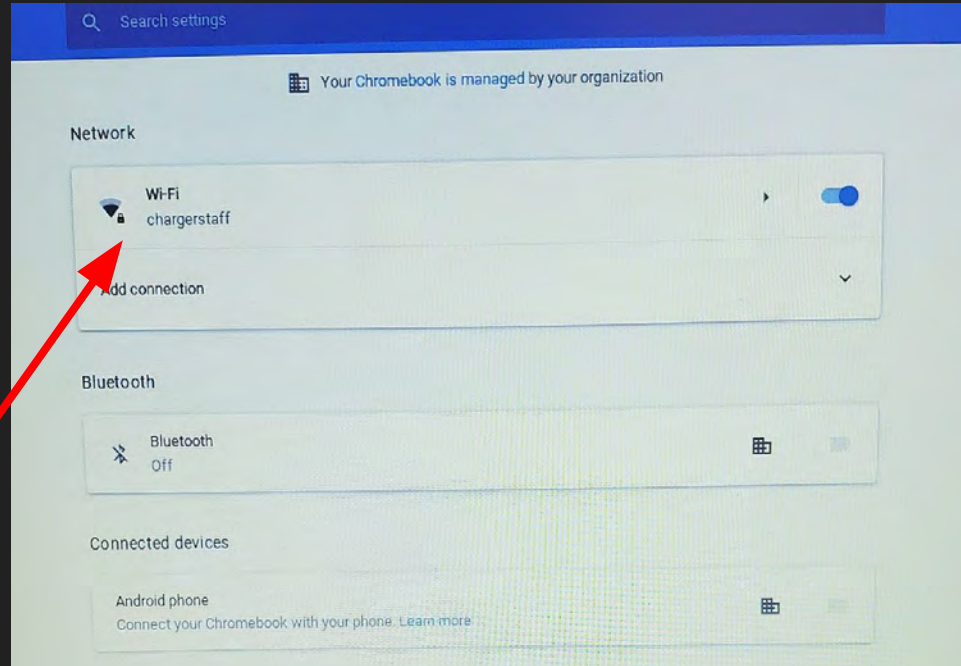

Next, click on the settings button.

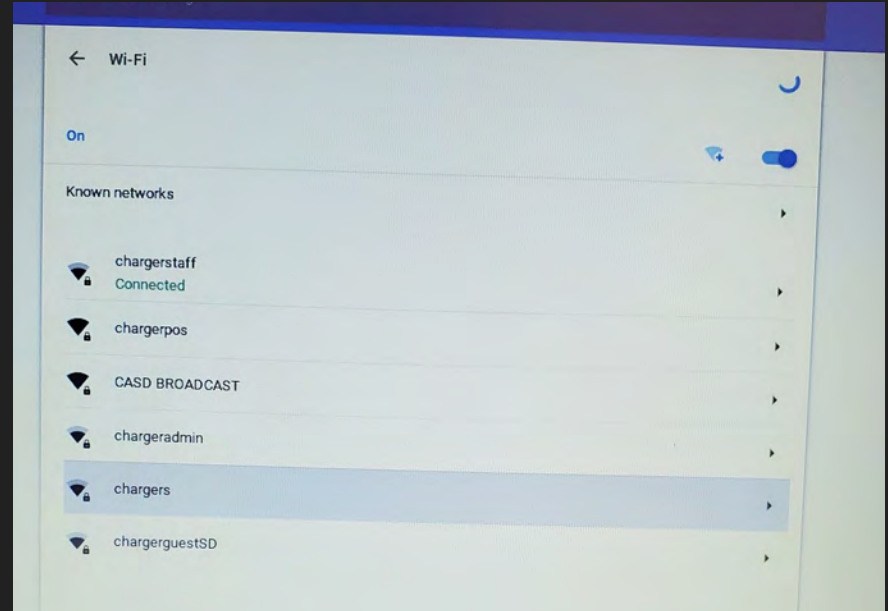

A new window will appear.

Next, click on Wifi

Then, select the wifi network you would like to join.

Based on the wifi network you are joining, you may have to enter a password.

If the wifi network you are joining doesn't have a password, it should start connecting as soon as it is clicked.

If there is a password however, enter the password in the space provided and click on the connect button.
