Logging In

There are differences in the login process and login credentials used for Mobile App (below) and Mobile Web (next page). Once logged in, however, both display the same data.

Mobile App: Login Credentials

The eSchoolData Mobile® App authenticates users via the **Primary Email Address** associated with the parent’s Portal account, instead of the User ID associated to the Portal account.

Enter your **Primary Email Address** and tap **Next**. Enter your **Password** and tap **Sign in**. Users who have forgotten their password must contact their district to have it reset.

If your **Primary Email Address** is associated to students in multiple eSD® districts, or also associated to a staff account in an eSD® district, a **Role** field appears between the **Email Address** and **Password**, allowing you to select the applicable district/role.

Note:
The **Primary Email Address** is the address to which “Forgot Password?” emails are sent.

If your district has NOT auto-generated parent portal accounts, you will need to go to the eSD® Parent Portal to request an account. Please see the **eSD® Portal – Parent View User Guide** for instructions on requesting an account.

Important:
Portal accounts are locked automatically when users’ **failed login attempts** exceed the defined limit, and a “locked account” email is automatically sent to the user’s **Primary email address**.

Users will be directed to try again after a specified length of time.
