CAES	10/7/2021	Student	School nurse received a call from parent regarding her student not feeling well. Parent will follow up with school nurse.
CAES	10/12/2021	Employee	Employee tested positive, spoke to School Nurse and was advised on quarantine.

CAHS	10/15/2021	Student	Student was sent home by School Nurse with flu like symptoms. Follow up with PCP, PCR test recommended and follow up with school nurse.
CAES	10/18/2021	Student	Student was sent home by School Nurse with flu like symptoms. Follow up with PCP, PCR test recommended and follow up with school nurse.
CAHS	10/18/2021	Student	Student was sent home by School Nurse with flu like symptoms. Follow up with PCP, PCR test recommended and follow up with school nurse.
CAES	10/18/2021	Student	Parent notified School Nurse of a COVID+ case in household. Follow up with PCP, recommend F testing.
CAES	10/18/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	10/19/2021	Student	Parent contacted School Nurse regarding children being direct contacts of a COVID+ case. Follow up with PCP and school nurse.
CAES	10/19/2021	Student	Parent contacted School Nurse regarding children being direct contacts of a COVID+ case. Follow up with PCP and school nurse.
CAHS	10/19/2021	Student	Parent contacted School Nurse that student tested COVID+. Close contacts identified.
CAES	10/20/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow up with PCP and update school nurse.
CAES	10/20/2021	Student	Parent contacted School Nurse of a COVID+ case in household. Students sent home, follow up with PCP, recommended PCR testing and keep nurse informed. Tested COVID+.
CAHS	10/21/2021	Student	Student was sent home by School Nurse with symptoms and close contact with a COVID+ person.
CAHS	10/25/2021	Student	Parent contacted School Nurse that her child was exposed to COVID+ case. School Nurse conducted contract tracing, student being tested, in quarantine and will follow up with School Nurse.
CAHS	10/25/2021	Student	Parent contacted School Nurse that her child was exposed to COVID+ case. School Nurse conducted contract tracing, student being tested, in quarantine and will follow up with School Nurse.
CAHS	10/25/2021	Student	Parent contacted School Nurse that student is COVID+. Follow up with PCP and will follow up with School Nurse.
CAHS	10/25/2021	Student	Student was a close contact of COVID+ case. Spoke to School Nurse, followed up with PCP.
CAHS	10/25/2021	Student	Student was a close contact of COVID+ case. Spoke to School Nurse, followed up with PCP.
CAES	10/25/2021	Student	Student was sent home by school nurse for COVID like symptoms. Parent aware of follow up with PCP, PCR testing recommended and will contact school nurse.

CAES	10/26/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	10/26/2021	Student	School Nurse sent home a student with flu like symptoms. Recommended PCR testing, following with PCP and school nurse.
CAES	10/27/2021	Student	School Nurse sent home a student with flu like symptoms. Recommended PCR testing, following with PCP and school nurse.
CAHS	10/27/2021	Student	Student was sent home by school nurse for not feeling well. Person in household tested COVID. School nurse will follow up with parent.
CAES	10/27/2021	Student	Student identified as a close contact. School nurse contacted parent, recommended quarantine, tested and follow up with school nurse.
CAES	10/27/2021	Student	Student identified as a close contact. School nurse contacted parent, recommended quarantine, tested and follow up with school nurse.
CAES	10/27/2021	Student	Student identified as a close contact. School nurse contacted parent, recommended quarantine, tested and follow up with school nurse.
CAES	10/27/2021	Student	Student identified as a close contact. School nurse contacted parent, recommended quarantine, tested and follow up with school nurse.
CAES	10/28/2021	Employee	Employee tested positive, spoke to School Nurse and was advised on quarantine. Direct Contacts were contacted and provided guidance.
CAES	10/28/2021	Employee	Employee was identified as a close contact. Recommended to wear masks indoor, PCR testing day five, follow up with PCP, and monitor for symptoms.
CAES	10/28/2021	Employee	Employee was identified as a close contact. Recommended to wear masks indoor, PCR testing day five, follow up with PCP, and monitor for symptoms.
CAES	10/28/2021	Employee	Employee was identified as a close contact. Recommended to wear masks indoor, PCR testing day five, follow up with PCP, and monitor for symptoms.
CAES	10/28/2021	Employee	Employee was identified as a close contact. Recommended to wear masks indoor, PCR testing day five, follow up with PCP, and monitor for symptoms.
CAHS	10/28/2021	Student	Student was sent home with flu like symptoms. School Nurse recommended testing, follow with PCP and keep nurse informed.
CAHS	10/30/2021	Employee	Employee tested COVID+, spoke to school nurse, DOH provided information, guidance provided on quarantine and return date.
CAHS	10/30/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided guidance.
CAES	10/30/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided guidance.
CAES	11/1/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.

CAHS	11/2/2021	Student	Student identified as a close contact to a COVID+ case. School Nurse contacted parent advised quarantine and testing requirements.
CAHS	11/2/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	11/2/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	11/2/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	11/2/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provid guidance.
CAHS	11/3/2021	Student	Parent contacted school nurse her student tested COVID+. DOH contacted, guidance provided.
CAHS	11/3/2021	Student	Student was sent home by school nurse for flu like symptom
CAES	11/3/2021	Student	Parent contacted school nurse her student is not feeling well but is being tested for COVID. \ follow up with school nurse.
CAES	11/4/2021	Student	Parent contacted teacher that student tested COVID+. School Nurse will provide guidance.

CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/2/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/5/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.

CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/8/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/9/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/9/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.

CAES	11/5/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	11/9/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/9/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/8/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/8/2021	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	11/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/10/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	11/10/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/10/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	11/15/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	11/15/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/15/2021	Student	Student was identified as a close contact. Per MD is in quarantine. School Nurse has been in contact with parent.
CAES	11/15/2021	Student	Parent contacted school nurse that child tested COVID+. DOH contacted, in quarantine and follow up with school nurse.
CAES	11/15/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/15/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAES	11/15/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/15/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.

CAES	11/16/2021	Student	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAHS	11/16/2021	Student	Student was sent home by school nurse with low grade temp. Advised to PCR test and follow with school nurse.
CAHS	11/16/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/17/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	11/17/2021	Student	Student was identified as a close contact. School nurse is aware and quarantine guidelir provided.
CAHS	11/17/2021	Student	Student was identified as a close contact. School nurse is aware and quarantine guidelir provided.
CAHS	11/17/2021	Student	Student was identified as a close contact. School nurse is aware and quarantine guidelir provided.
CAHS	11/17/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/17/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/17/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/17/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/17/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/17/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/18/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	11/18/2021	Student	Mom reported student tested COVID+, DOH contactec
CAHS	11/18/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAES	11/18/2021	Student	Student sent home as was identified as a close contact of a COVID+ case. Followed up with PCP a is being tested.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP a update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP a update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP a update school nurse.

CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/18/2021	Employee	Employee identified as a close contact of a COVID+ case.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	District notified by DOH that a student tested COVID+. School nurse conducted contact tracing and parents were notified.
CAHS	11/19/2021	Student	Student tested COVID+, DOH contacted, contact tracing conducted and parents notified.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP and update school nurse.

CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP & update school nurse.
CAHS	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP & update school nurse.
CAES	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP & update school nurse.
CAES	11/18/2021	Student	Student identified as close contact to COVID+. Recommended PCR testing, follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAES	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAES	11/22/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.

CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAES	11/23/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAES	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAES	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAES	11/23/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/24/2021	Student	Parent contacted School Nurse child is experiencing symptoms, follow up with PCP and contact School Nurse with results.
CAHS	11/24/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/24/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/24/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/24/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/26/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.

CAHS	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP and update school nurse.
CAHS	11/30/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine based on CDC guidelines and report submitted to DOH.
CAHS	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP and update school nurse.
CAES	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP and update school nurse.
CAES	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP and update school nurse.

CAHS	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	11/30/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/1/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/1/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/1/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/1/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/2/2021	Student	Parent called school nurse student is symptomatic and was exposed to COVID. PCR testi recommended, isolate and quarantine. Close contacts identified.
CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.

CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAHS	12/2/2021	Student	Student identified as a close contact to COVID+. Recommended PCR testing follow up with PCP & update school nurse.
CAES	12/2/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAHS	12/2/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/2/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/3/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	12/3/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/5/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/3/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/3/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/3/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/3/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/3/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/7/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/7/2021	Student	Student in direct contact with a COVID+ person. Sent home by school nurse. Parent will contact v school nurse after testing.
CAHS	12/7/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.

CAHS	12/7/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	12/7/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAES	12/7/2021	Student	Parent contacted School Nurse to inform School student was exposed to a COVID+ case and is experiencing symptoms. Being tested and will follow-up with School Nurse.
CAES	12/7/2021	Student	Parent contacted School Nurse to inform School student was exposed to a COVID+ case and is experiencing symptoms. Being tested and will follow-up with School Nurse.
CAES	12/7/2021	Student	Parent contacted School Nurse to inform School student was exposed to a COVID+ case and is experiencing symptoms. Being tested and will follow-up with School Nurse.
CAHS	12/7/2021	Student	Parent contacted School Nurse to inform School student was exposed to a COVID+ case and is experiencing symptoms. Being tested and will follow-up with School Nurse.
CAHS	12/7/2021	Student	Student was sent home by school nurse for flu like symptom
CAHS	12/8/2021	Student	Parent contacted school nurse that student was in close contact with a COVID+ cas Recommended quarantine and testing. Parent will follow up with school nurse.
CAHS	12/8/2021	Employee	Employee is experiencing flu like symptoms. Spoke to school nurse who is recommending follow with PCP and testing.
CAHS	12/8/2021	Student	Parent contacted school nurse that student is home with flu like symptoms. Parent is taking testing and following up with PCP. Will update school nurse.
CAHS	12/8/2021	Student	Parent contacted school nurse that student is in close contact with a COVID+ case. Student is fi vaccinated and guidance was provided.
CAHS	12/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	12/8/2021	Student	Student tested COVID+, DOH contacted, contact tracing conducted and parents notified.
CAHS	12/8/2021	Student	Student was identified as a close contact to a COVID+ person. School nurse spoke to parent and quarantine and recommended PCR testing.
CAES	12/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAES	12/8/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	12/8/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.

CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed. Positive.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed. Positive.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed. Positive.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAES	12/9/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/9/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	12/9/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH. Positive.
CAES	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH. Positive.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.

CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH. Positive.
CAES	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH. Positive.
CAHS	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH. Positive,
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.

CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAES	12/10/2021	Student	Student identified as a close contact to a COVID+ case. Recommended quarantine, PCR testing a keep school nurse informed.
CAHS	12/10/2021	Student	Student sent home by school nurse for flu like symptoms. Recommended PCR testing, follow with PCP and update school nurse.
CAES	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH. Positive.
CAHS	12/13/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAES	12/10/2021	Student	Student tested COVID+. School Nurse conducted contact tracing, recommended quarantine bas on CDC guidelines and report submitted to DOH.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.

CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/13/2021	Student	Student was identified as a direct contact to a COVID+ case. PCR testing and follow up with PC Keep nurse informed.
CAHS	12/15/2021	Employee	Employee tested COVID+, spoke to school nurse, DOH provided information, guidance provided quarantine and return date.
CAHS	12/15/2021	Employee	Employee was a direct contact of a COVID+ person. Recommended monitor for symptoms, wear masks in doors for 14 days, PCR testing on day 3-5, follow up with nurse.
CAHS	12/15/2021	Employee	Employee was a direct contact of a COVID+ person. Recommended monitor for symptoms, wear masks in doors for 14 days, PCR testing on day 3-5, follow up with nurse.
CAHS	12/15/2021	Employee	Employee was a direct contact of a COVID+ person. Recommended monitor for symptoms, wear masks in doors for 14 days, PCR testing on day 3-5, follow up with nurse.
CAHS	12/15/2021	Student	Student was a close contact of COVID+ case. Spoke to School Nurse, followed up with PCP.
CAHS	12/15/2021	Parent	Parent was a close contact of COVID+ case. Nurse provided guidanc
CAHS	12/16/2021	Student	Student texted COVID+, DOH contacted, contact tracing conducted and parents notified.
CAHS	12/16/2021	Student	Student texted COVID+, DOH contacted, contact tracing conducted and parents notified.
CAES	12/20/2021	Employee	Employee tested COVID+, spoke to school nurse, DOH provided information, guidance provided quarantine and return date.
CAES	12/20/2021	Employee	Employee was identified as a close contact. Recommended masks, monitor for symptoms, test days 3-5.

CAES	12/20/2021	Employee	Employee was identified as a close contact. Recommended masks, monitor for symptoms, test ( days 3-5.
CAES	12/20/2021	Employee	Employee was identified as a close contact. Recommended masks, monitor for symptoms, test ( days 3-5.
CAES	12/31/2021	Student	Student tested COVID+ on 12/29. Parent is also COVID+
CAES	1/1/2022	Employee	Employee was a direct contact of a COVID+ person in household. Will test on Day 5 and info school nurse of results.
CAES	1/1/2022	Employee	Employee tested COVID+. Spoke to school nurse and will quarantine for the five day
CAHS	1/1/2022	Student	Employee tested COVID+. Spoke to school nurse and will quarantine for the five day
CAHS	1/1/2022	Student	Employee was a direct contact of a COVID+ person in household. Will test on Day 5 and info school nurse of results.
CAHS	1/3/2022	Student	Student tested COVID+ and will quarantine and follow DOH guidance through 1,
CAES	1/3/2022	Student	Sibling tested COVID+ and will quarantine and follow DOH guidance through 1,
CAHS	1/3/2022	Student	Student tested COVID+ and will quarantine and follow DOH guidanc
CAHS	1/3/2022	Student	Student tested COVID+ and will quarantine and follow DOH guidanc
CAHS	1/3/2022	Student	Student was a direct contact a COVID+ person. Parent is keeping child home and will moni symptoms.
CAES	1/3/2022	Students	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAHS	1/3/2022	Student	Student tested COVID+. School Nurse spoke parent and following DOH recommendations.
CAES	1/3/2022	Student	Student was direct contact a COVID+ person. Parent is keeping child home and will moni symptoms.
CAES	1/3/2022	Students	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAHS	1/3/2022	Student	Student is symptomatic and is being tested. School Nurse spoke to parent and provided the necessary guidelines to follow. Parent will report back to School Nurse with results.
CAHS	1/3/2022	Student	Student was direct contact a COVID+ person. Parent is keeping child home and will moni symptoms.
CAHS	1/3/2022	Students	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAES	1/3/2022	Students	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse. Tested positive.
CAHS	1/3/2022	Students	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.

CAHS	12/27/2021	Student	Student tested COVID+. DOH guidelines followed and follow up with school nurse.
CAHS	1/3/2022	Student	Student tested COVID+. DOH guidelines followed and follow up with school nurse.
CAES	1/3/2022	Student	Student tested COVID+. DOH guidelines followed and follow up with school nurse.
CAES	1/3/2022	Student	Student tested COVID+. DOH guidelines followed and follow up with school nurse.
CAES	1/3/2022	Student	Student tested COVID+. DOH guidelines followed and follow up with school nurse.
CAES	1/3/2022	Student	Student were exposed to a COVID+ case. DOH guidelines were provided and follow up with school nurse.
CAHS	1/3/2022	Student	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAHS	1/3/2022	Student	Student is experiencing flu like symptoms. School Nurse spoke to parent and test is scheduled today. Parent will follow up with nurse.
CAHS	1/3/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guideline
CAES	1/3/2022	Student	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAHS	1/3/2022	Student	Student was seen by PCP and is a probable case. Parent spoke to school nurse and DOH guidelines being followed.
CAHS	1/3/2022	Student	Parents are COVID+ and student is symptomatic. Parent spoke to school nurse and guidance provided based on new DOH recommendations. Tested COVID+.
CAES	1/3/2022	Employee	Employee woke up with symptoms, recommended testing, follow up with PCP and following DOH guidelines.
CAES	1/3/2022	Student	Students were exposed to a COVID+, students will be in quarantine and follow up with school nurse.
CAES	1/3/2022	Students	Students tested COVID+ on 1/3/2022. Spoke to School Nurse, following DOH guidance
CAHS	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guideline
CAHS	1/4/2022	Employee	Employee tested COVID+ Spoke with nurse and following DOH guideline
CAHS	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guideline
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAHS	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guidelines.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance. Now showing symptoms.
CAHS	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guidelines.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provide guidance.
CAES	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guideline
CAHS	1/4/2022	Employee	Employee tested COVID+. Spoke to school nurse and will quarantine for the five day

CAHS	1/4/2022	Student	Student tested COVID. Spoke to school nurse and following DOH guideline
CAHS	1/4/2022	Student	Parent contacted school nurse that student was home sick, family member tested COVID+. Parent taking student for PCR testing.
CAHS	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guidelines.
CAHS	1/4/2022	Student	Student tested COVID+. Spoke with nurse and following DOH guidelines.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
CAHS	1/4/2022	Student	Student was in close contact of a COVID+ case. School nurse spoke to parent and provided DC guidance.
