Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The District will evaluate throughout year students performance and students that are falling behind and whose grades are not meeting passing requirements will be offered summer school to make up what was educationally lost during year. There will be staff available to

assist the District high poverty students as well as any students who need additional resources throughout the summer to be on grade level to return for Fall semester.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	1,560	Monitoring of the students who come for summer school including test scores, behavioral patterns and parental involvement.

- Describe the evidence-based resources that will be used to support student growth during the summer school program.

As mentioned in the After school program and will be used in summer school: 1.Clear Lesson Goals will be used. Our staff will be clear about what we want the students to learn during each lesson. The effect that such clarity has on student results and will assist them in learning and relearning concepts lost during the pandemic. 2.Providing Students With Feedback from the testing and results seen in the work. By giving feedback involves letting your students and parents know how they have performed on a particular task along with ways that they can improve

- Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
25	Internal Provider	Staff will perform the duties of tutoring and assisting in students recapturing lost

Number of Staff Members	Internal/Outside Provider	Role
		educational strides that occurred during pandemic.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Internal test scores, progress reports, standardized tests	Weekly and Monthly	It is expected that after the summer program is completed students will be back at grade level to succeed to next grade in their academic progression.

6. How will the LEA engage families in the summer school program?

The District will place information on its website and use its Student information system call out to seek out interested families and will reach out directly thru letter correspondence to students in need.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$64,557.00

Allocation

\$64,557.00

Budget Over(Under) Allocation

\$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$32,278.50	Staff salaries to complete summer school learning program.
1200 - SPECIAL PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$20,000.00	Staff of special education students to complete summer school learning program for Sepcial ed students
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	300 - Purchased Professional and Technical Services	\$12,278.50	Extended school year program thru NEIU 19 or any summer placements for students who need additional summer school to make up for lost educational time.
