

YOUTH HEART AMBASSADOR

As a Youth Heart Ambassador, your student may be asked to participate in national and local marketing materials, such as:

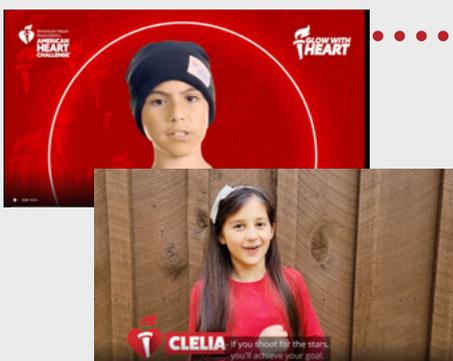

Collection Envelopes: Featured on both American Heart Challenge and Kids Heart Challenge, these printed envelopes are distributed in participating schools across the country.

Posters: Ambassadors share their stories with schools across America, which include, first name, grade and a short bio. These materials can be printed and shared electronically throughout schools and school districts.

Social Media: Advocates and survivors are featured on AHC and KHC social media platforms. Schools are encouraged to share on their social media channels as well.

Videos: Your student may be asked to record short videos with provided scripts such as morning announcements for school events, pep talks which support mental-well being and interviews for STEM career building.
